Mexico by the Numbers

\$9.7 BILLION

has been invested in Mexico by foreign automakers since 2015

46 COUNTRIES

have free trade agreements with Mexico, an ideal manufacturing hub for export

\$6.87 BILLION

worth of medical device-related goods exported annually from Mexico

\$4.75 BILLION

worth of total exports in the aerospace industry from Mexico annually

“ ON THE RECORD ”

“Mexico was chosen very deliberately. In strategic terms, this country is the linchpin, in the middle between North and South America. With more than 40 free-trade agreements, this country is an ideal export base.”

Audi / Rupert Stadler, CEO

“The Entrada Shelter Model gives us the lowest cost of labor in North America, and instead of putting our resources toward administration, human resources, legal and import/export, we can focus on our core competencies and let Entrada take care of the rest.”

dIhBOWLES / Ron Tobb, Sr. Vice President of Operations & Quality

“Mexico today is a dynamic market for US goods and services, a growing home for joint innovation, and a partner to American companies in third countries.”

General Electric / John Rice, Vice Chairman/CEO, GE Global Growth

Does your company have a Mexico strategy?

We are here to help

Entrada Group is a US-based company that helps auto manufacturers transition to Mexico swiftly, securely and cost-effectively.

Through our Fresnillo, Zacatecas, and Celaya, Guanajuato-based industrial parks, you can benefit from immediate access to competitive facilities, a high-quality workforce and on-site, professional shared services.

Should you wish to establish your own facility elsewhere in Central Mexico, you can leverage Entrada's entry & start-up expertise in addition to our professional shared support services from any location of your choosing.

In either case, you retain total production control, and gain the tools to quickly and efficiently launch your Mexico operations.

Entrada Services
